PROFESSIONAL SUMMARY

Java Full Stack Developer with 2.5+ years of experience building secure, scalable web applications using Java, Spring Boot, Spring Security, Spring Data JPA, Hibernate, PostgreSQL, MySQL, React.js and Next.js. Currently developing backend services for an enterprise recruitment platform, with hands-on experience in RESTful APIs, JWT authentication, Role-Based Access Control (RBAC), Razorpay and PayPal payment integration, webhooks, and LLM / Generative AI integration.

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL, Python (AI integrations)

Backend: Core Java, OOP, Spring Boot, Spring Security, Spring Data JPA, Hibernate, JDBC, Servlets

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS

Databases: PostgreSQL, MySQL

APIs & Integrations: RESTful APIs, CRUD, Webhooks, Third-Party APIs, Razorpay, PayPal, Subscription Management

Security: JWT (Access & Refresh Tokens), RBAC, Input Validation, Exception Handling, Vulnerability Assessment

AI & Tools: LLM Integration, Generative AI, AI-Powered Resume Analysis, Git, GitHub, Postman

Additional Exposure: Blockchain, SHA-256, AES, DES, Cloud Computing, Data Mining, K-Means Clustering, Fuzzy Analysis

PROFESSIONAL EXPERIENCE

Associate Software Engineer | **VR PI Tech Solutions** — **Nov 2025 – Present**

- Develop backend services for an enterprise recruitment and job application platform using Java, Spring Boot, Spring Data JPA, Hibernate and PostgreSQL in a modular monolithic architecture, including PostgreSQL queries and joins.
- Design RESTful APIs for company management, job postings, candidate applications and recruitment workflows, with request validation and exception handling; test and validate APIs using Postman.
- Implement Spring Security with JWT access and refresh token authentication and Role-Based Access Control (RBAC) for Super Admin, Company Admin, HR, Recruiter and Candidate roles.
- Integrate Razorpay and PayPal payment gateways for payments and subscription management, with webhook handlers to synchronize payment events and subscription status.
- Integrate AI-powered resume analysis into recruitment workflows; support deployment, production debugging, troubleshooting and issue resolution.

Trainee Software Engineer | **Strydo Technologies Pvt Ltd** — **May 2024 – Nov 2025**

- Developed full-stack features using Java, Spring Boot, React.js, Next.js and Tailwind CSS, building RESTful APIs for application workflows and frontend-backend communication.
- Implemented business logic and CRUD operations with Spring Data JPA, Hibernate and MySQL, adding exception handling and input validation to improve API reliability.
- Secured applications with Spring Security and JWT authentication, and conducted cybersecurity vulnerability assessments to identify application security risks.
- Integrated third-party APIs and contributed to LLM and Generative AI integrations, including Python-based AI solutions.
- Supported deployment, production troubleshooting, debugging and maintenance; researched blockchain and decentralized application concepts.

Software Engineer Intern | **Strydo Technologies Pvt Ltd** **Nov 2023 – May 2024**

- Contributed to full-stack application development and frontend-backend integration using Java, Spring Boot, React.js, Next.js, Tailwind CSS and MySQL.
- Worked on REST API development, database operations and practical development tasks across the application stack.

Java Full Stack Developer Intern | **KodNest Technologies** **Jun 2023 – Feb 2024**

- Completed hands-on Java Full Stack training in Core Java, OOP, JDBC, Servlets, Spring Boot, MySQL, HTML, CSS, JavaScript and React.js, building frontend and backend applications.

PROJECTS

Musicon | *Java, Spring Boot, React.js, MySQL, Material UI* github.com/nageswararao32/Musicon

- Full-stack music streaming application with curated playlists, artist pages and top charts, built on Spring Boot REST APIs and a React.js frontend.

SocialSphere | *Java, Spring Boot, React.js, MySQL* github.com/nageswararao32/SocailSphere

- Social media web application with post creation, sharing and commenting, using Spring Boot REST APIs tested in Postman and a React.js UI.

ShopNest Cart | *Java EE, Servlets, JSP, JDBC, Oracle* github.com/nageswararao32/shopnest

- E-commerce web application with admin product management and customer product catalog and shopping cart.

EDUCATION

B.Tech, Electronics and Communication Engineering **2019 – 2023**

Sri Venkateswara College of Engineering (SVCE), Tirupati | CGPA: 8.2/10

CERTIFICATIONS

- Java Full Stack Development – KodNest Technologies
- Java Full Stack Development – Pantech E-Learning
- HTML & CSS – Cisco ThingQbator
- TCS iON Career Edge – Young Professional
